

Are you interested in spending more time on your business and less time on your communications?

BellSouth® Integrated Solutions delivers your voice, data and Internet over one single connection.

At a Glance

- Supports Voice, Data and Internet Services
- Flexible, Customized Solution
- Scalable as your business grows
- Leading Technology from a Company You Trust
- Value-Priced
- Add long distance for a full solution

To stay competitive today, businesses must communicate in many ways including voice, data transmission, and the Internet. This has often meant sourcing communications solutions from several different providers – a cumbersome, costly and inefficient process. Now BellSouth brings you an effective, reliable and cost effective solution to handle all of your voice and Internet needs with BellSouth® Integrated Solutions. And because it's scalable, our Integrated Solution adapts easily to meet your growing business needs. BellSouth delivers extra value by providing 36 months of maintenance and monitoring on your integrated access device as part of the package.

Integrated Solutions Includes These Communications Services:

- 8-22 voice lines
- 128K-768K BellSouth® Dedicated Internet Access service
- A standard business line and modem for out-of-band trouble isolation, maintenance and reconfigurations
- All on a single bill
- Integrated Access Device
- Equipment maintenance and monitoring plan for 36-months
- Installation fees waived

Add BellSouth Long Distance for a Complete Solution

Now, when you order Integrated Solutions you're also eligible for special low rates on BellSouth®

Long Distance service!*

Customize and Grow

Our Integrated Solution runs on one of the most advanced networks available. Depending on your business needs, you can decide how many lines you want to allocate for data, or Internet and voice – up to 22 lines for voice/data and Internet speeds from 128K to 768K. You can purchase only those channels you intend to use, activate additional channels or scale back when you need to, and re-allocate your voice/data/Internet mix at any time. It's like having your own private network.

Streamlined Customer Service

With Integrated Solutions, your contact with BellSouth is streamlined: you'll have a specialized team who will manage your installation from beginning to end and one number to call for all technical and non-technical questions. Because all of your services are billed on one bill, that means convenience too. BellSouth has made communications simple with a seamless customer care process, a flexible solution and value pricing.

Complete Your Solution With BellSouth Long Distance

With Integrated Solutions you'll easily conduct voice, data and Internet communications over a single line. Maximize your solution by adding

Are you interested in spending more time on your business and less time on your communications?

BellSouth® Integrated Solutions delivers your voice, data and Internet over one single connection.

BellSouth Long Distance.

Why BellSouth?

With over 100 years of experience, BellSouth delivers fully converged voice and data networks – at very competitive prices. By giving you the ability to configure all your communications connections, we simplify your network challenges, increase your network flexibility, and reduce your communications costs. By value-packaging our services, we're making this simplicity more affordable. By creating a single point of contact for provisioning and maintenance, we make sure that you always know who to call. And by designing data networks to be as reliable as our voice networks have always been, BellSouth brings you peace of mind over a single connection.

BellSouth® – the Leader in Metro Data Networking

Voted #1 Frame Relay provider in the U.S. for the second straight year by *Network Magazine*.
